AERIAL SPRAYING: The West Nile Virus and Eastern Equine Encephalitis are very serious in the southeastern part of the state. Northampton is the westernmost town that has been affected. Middlefield has 0 cases. Every Town in the commonwealth is subject to spraying unless we opt out. In order to opt out, the Selectboard need to educate people on how to reduce the mosquito population. Carol Waag volunteered the Commission's funds to do a mailing to educate the residents. The Selectboard voted to opt out of the spraying. A motion was made and seconded to spend money as needed to do the mailing. All were in favor.
